

# Mag<sup>✓✓</sup>sh

## Quick Start Guide

# Getting Started

GO!

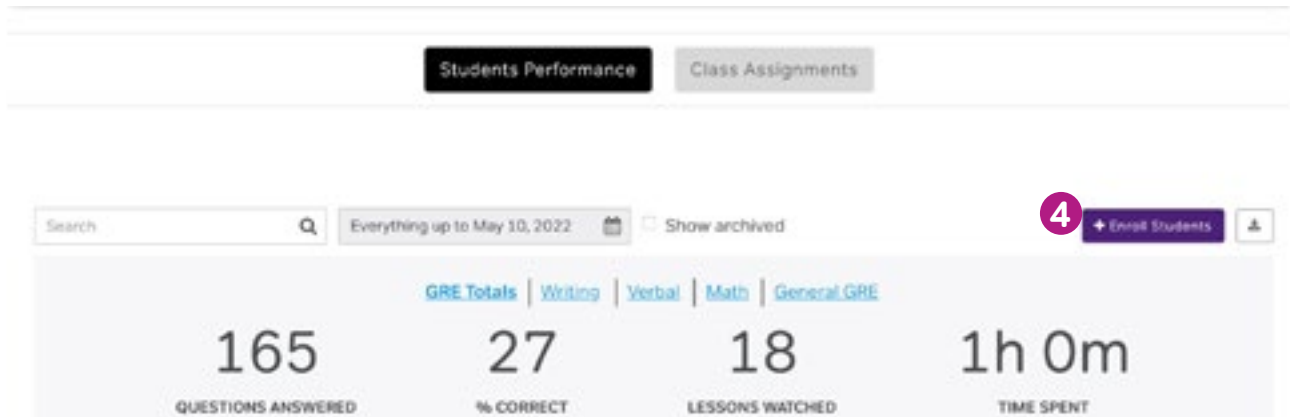

- 1 Log in to your instructor account.
- 2 Click the Classes tab at the top when in your instructor account.
- 3 Select the class from the list that you would like to add students to, or you have the ability to create a new class.

The screenshot shows the Magoosh instructor portal interface. At the top left is the Magoosh logo, followed by navigation links for 'Portal Home' and 'Resources'. On the right, there are links for 'Switch to Student Experience' and 'Account'. Below the navigation bar, a horizontal menu contains four tabs: 'Classes' (highlighted with a pink circle '2'), 'Students', 'Assignments', and 'Reporting'. Underneath the tabs, there is a search bar with the text 'Search', a 'Show archived' checkbox, and a '+ Create New Class' button. A table below displays a list of classes with columns for 'CLASS NAME', 'SECTION NUMBER', 'STUDENTS', 'TEACHERS', and 'ACTIONS'. The first row is highlighted with a pink circle '3' and contains the following data:

CLASS NAME	SECTION NUMBER	STUDENTS	TEACHERS	ACTIONS
GMAT Test Class		1	2	[Edit] [Delete]
GRE Test Class		1	2	[Edit] [Delete]
IELTS Test Class		1	2	[Edit] [Delete]

\* While we don't cover creating a class in the guide it's easy to do. You can visit the "Resources" for more help. Just make sure to add yourself and any other instructors at the time you create the class.

4 Click on “Enroll Students” near the top right of the class page.

5 Select the type of account you wish to grant from the list of available options.

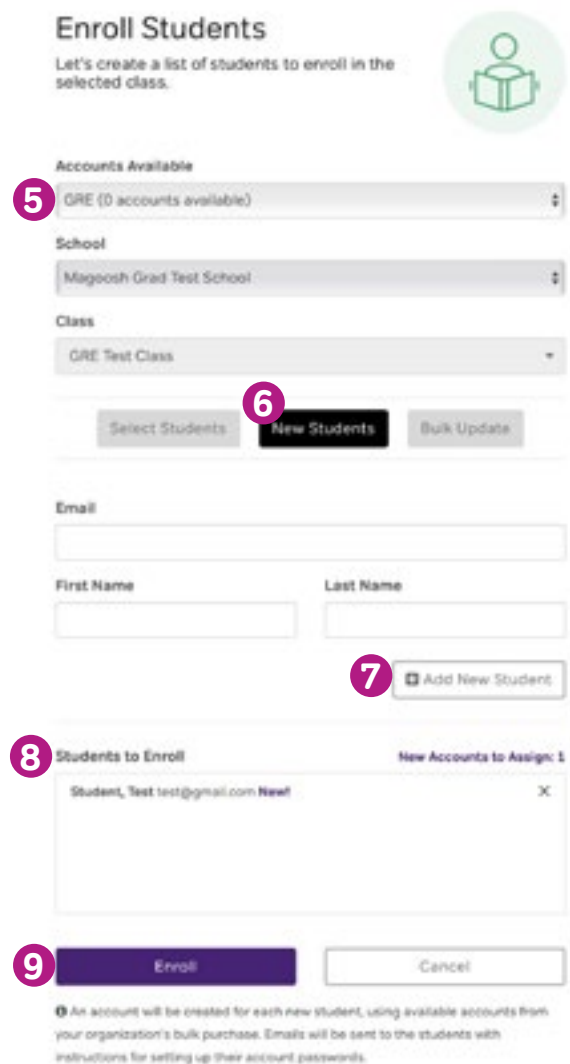

6 Click on new students to add students.

- Enter their email address
- Enter their first and last name

7 Click “Add New Student” and repeat steps 7 & 8 to add all of your students.

8 Review the students in the box to confirm everything is correct.

9 Click on “Enroll”. This will add the students listed in the box to your class and send each student a welcome email with directions on how to log in to Magoosh.

# Monitor Your Students

Finally, to monitor student progress, click on a student in the “student” tab.  
Here is an example of the type of stats you’ll be able to monitor from your account:
